Special Issue on Water Scarcity: Challenges and Opportunities for Crop Science

Preface
N.C. Turner (Crawley (Perth), Australia) 1

Water scarcity: Fact or fiction?
F.R. Rijsberman (Colombo, Sri Lanka) 5

Improving agricultural water use efficiency in arid and semiarid areas of China
X.-P. Deng (Shaanxi, PR China and Crawley, Australia), L. Shan (Shaanxi, PR China), H. Zhang (Wembley, Australia) and N.C. Turner (Crawley, Australia and Wembley, Australia) 23

Managing secondary dryland salinity: Options and challenges
D.J. Pannell and M.A. Ewing (Crawley, Australia) 41

Water harvesting and supplemental irrigation for improved water productivity of dry farming systems in West Asia and North Africa
T. Oweis and A. Hachum (Aleppo, Syria Arab Republic) 57

Economics of rainwater harvesting for crop enterprises in semi-arid areas of East Africa
N. Hatibu (Nairobi, Kenya), K. Mutabazi, E.M. Senkondo and A.S.K. Msangi (Tanzania) 74

Can irrigation be sustainable?
S. Khan, R. Tariq (Griffith, Australia), C. Yuanlai (Peoples Republic of China) and J. Blackwell (Griffith, Australia) 87

Modernization and optimization of irrigation systems to increase water productivity
E. Playán (Zaragoza, Spain) and L. Mateos (Córdoba, Spain) 100

Can we maintain turf to customers' satisfaction with less water?
R.N. Carrow (Griffin, GA, USA) 117

Use of saline and non-potable water in the turfgrass industry: Constraints and developments
K.B. Marcum (Mesa, AZ, USA) 132

Reuse of effluent water—benefits and risks
S. Toze (Perth, Australia) 147

Irrigation and fertiliser strategies for minimising nitrogen leaching from turfgrass
L. Barton and T.D. Colmer (Crawley, Australia) 160

Increasing crop productivity when water is scarce—from breeding to field management
J. Passioura (Canberra, Australia) 176

Physiological traits used in the breeding of new cultivars for water-scarce environments
R.A. Richards (Canberra, Australia) 197

Breeding for improved abiotic stress tolerance in maize adapted to southern Africa
M. Bänziger, P.S. Setimela (Harare, Zimbabwe), D. Hodson (Mexico, Mexico) and B. Vivek (Harare, Zimbabwe) 212

Improving drought tolerance in rainfed lowland rice: An example from Thailand
B. Jongdee (Ubon Ratchathani, Thailand), G. Pantuwan (Bangkok, Thailand), S. Fukai and K. Fischer (Brisbane, Australia) 225
Past, present and future criteria to breed crops for water-limited environments in West Africa
M. Dingkuhn (Montpellier, France), B.B. Singh (Kano, Nigeria), B. Clerget (Bamako, Mali), J. Chantereau (Montpellier, France) and B. Sultan (Paris, France) 241
Fisheries and water productivity in tropical river basins: Enhancing food security and livelihoods by managing water for fish
P. Dugan (Cairo, Egypt), M.M. Dey (Penang, Malaysia) and V.V. Sugunan (Cairo, Egypt) 262
